Muhammad Zaryab Ali

has successfully completed the online, non-credit Specialization

Planning & Control with Oracle Primavera PPM Professional

Congratulations on successfully completing the course "Planning and Control with Oracle Primavera P6 PPM Professional." This course has provided you with a solid foundation in Primavera P6, from mastering project management principles to creating detailed project plans. You've learned to navigate the software's powerful features, including setting up and customizing projects, defining calendars, and building a robust Work Breakdown Structure (WBS). Through practical workshops, you've honed your skills in resource optimization, earned value management, and global change functions, equipping you to manage and control large-scale projects with confidence and efficiency.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
